Advocacy & Activism Conversation

September 10, 2019

September 10, 2019

Attending this panel introduced me to leaders in the Wheaton community from the Student Government Association, the Scholars At Risk Committee, and the Center for Social Justice & Community Impact. They talked about what it means to be an activist, the importance of approaching it with an intersectional lens, being aware of privilege, etc. I can see all of this information helping me as I integrate myself into the Wheaton community.
