Europa Lecture with Dr. Geoff Collins

September 12, 2019

September 13, 2019

This lecture was both informative and engaging; I could tell that I wasn't the only person in the room getting excited about the real potential of there being life on Europa. In terms of how this relates to the Wheaton community, it was cool to see how students here helped with Dr. Collins' research, and has made me start considering how I could work with professors on major projects further into my Wheaton career.
